Software Developer - Frontend Specialist

I am a dedicated **Software Developer** with a strong foundation in **React.js**, **JavaScript**, and **responsive design**. I enjoy creating dynamic, user-focused web applications and am always excited to tackle new challenges. With experience in **state management using Redux** and **RTK Query**, as well as backend solutions like **Firebase** and **Supabase**, I strive to deliver clean, functional, and visually appealing code. Constantly learning and evolving, I'm passionate about building solutions that enhance user experiences and streamline processes.
